

Paperlike®

Digital Planner 2023

About the Paperlike Digital Planner

The Digital Planner consists of Year, Month, Week, and Day pages so that you can effectively plan out your year.

This planner can be easily imported to GoodNotes, Notability, Noteshef, and any other digital planning app that can import PDF files.

Navigating Within Your App

This planner uses PDF links to help you navigate and stay organized.

If this is your first time using a digital planner with a notetaking app, keep in mind that the app is likely to have an “edit mode” and a “view mode.”

In “edit mode,” you will be able to add data and content to your calendar using your stylus or keyboard. However, navigation can be difficult.

In “view mode,” all editing is disabled and you can navigate freely between pages without adding additional lines or accidentally erasing your work.

For the best digital planning experience, take some time to understand how your preferred app works before you start planning.

The Year Page displays all 12 monthly calendars. Tap on the name of any month to navigate to the corresponding Month Page.

By using iPadOS multitasking and a compatible notetaking app, you can view multiple calendar pages at once with Split View.

Use this functionality to coordinate your calendar pages, move tasks, and more.

Your Week and Day Pages follow the same time schedule. Easily copy and paste information from one page to another while using the Split View feature.
